

Associates Environmental

THE END OF OCTOBER IS APPROACHING. IT'S TIME TO DO SOMETHING SCARY...

CHECK YOUR COMPLIANCE WITH THE OFF-ROAD DIESEL REGULATION

JANUARY 1, 2015 A LOWER FLEET AVERAGE REQUIREMENT TAKES HOLD

It has been over a year since that dreadful Friday the 13th the California Air Resources Board (CARB) announced that the United States Environmental Protection Agency (USEPA) granted authorization to enforce all provisions of the In-Use Off-Road Diesel Regulation (Off-Road Regulation). Like a summer breeze you may have sailed through the first compliance date of the performance requirements, July 1, 2014. Now, with only months to take action, the task of meeting the next compliance date of January 1, 2015 may be more daunting.

Associates Environmental already assists many fleet owners and managers by making the requirements of the Off-road Diesel Regulation a little less scary. If you are one of them we appreciate your business. If you have yet to hand the keys to your fleet's compliance over to us, we invite you to explore our DRIVE Off-road Service.

The DRIVE Off-Road Diesel Service includes:

- * Off-road Fleet Inventory DOORS Reporting Update
- * Current Compliance Status Assessment
- * Technical Discussion of Future Compliance Options
- * Ranking of the Vehicles for Detrimental Impact to Compliance
- * Recommendations for Incentive Funding Projects
- * Preparation of Responsible Official Affirmation of Reporting (ROAR) and
- * On the Spot Consultations Regarding Vehicle Purchase and Sales

At Associates Environmental we believe that CARB will make enforcement of the Off-Road Regulation a top priority. We have developed our DRIVE services to help you remain in compliance with the Off-Road Regulation.

If you would like to see the full scope of the DRIVE Off-road Service or learn more about Associates Environmental's other DRIVE services please contact one of the following Associates:
